EYES ONLY FOR STEVENSON AND MCLOY.

At a suitable occasion in your negotiations with Kuznetsov and in connection with any discussion with him on the question of our continued reconnaissance, you should express to Kuznetsov our growing concern over ~~security~~ and improve fact Soviets are continuing work at ~~anti-aircraft~~ anti-aircraft arsenal in Cuba. We are concerned that someone might have the motive of interfering with our reconnaissance. We have made it amply clear to the Soviets that, in the absence of ~~other~~ other safeguards, we must and will continue that reconnaissance. We have no desire to return to the days of late October and assume this is also shared by the Soviets. The Soviets must recognize that destruction of American aircraft and loss of American life arising from this deliberate activity of the Soviet Union could well have such consequences. We hope Kuznetsov will understand that our motive in bringing this to his attention is simply to make sure that there is no misunderstanding on this point. In short, we feel it would be unwise to continue this buildup in view of the non-belligerent and non-provocative character and intent of our reconnaissance.
